PROFESSIONAL SUMMARY

Software Engineering student at Gümüşhane University experienced in full-stack development using C#, .NET Core, and React. Strong foundation in clean code principles, software testing, and layered architecture. Adept at database optimization, architectural refactoring, and building robust API integrations. Passionate about collaborative teamwork and actively contributing to the tech community through technical mentorship and developer programs.

TECHNICAL SKILLS

- **Languages:** C#, C, C++, Python, SQL, JavaScript
- **Frameworks & Libraries:** .NET Core, ASP.NET Core, Entity Framework Core, React.js, Tailwind CSS
- **Databases & Tools:** PostgreSQL, SQL Server, Docker, Git, GitHub/GitLab, Figma, Keycloak

EXPERIENCE

Software Development Intern | TNC Group (Software Persona) May 2026 – Jun 2026

- Contributed to enterprise software development lifecycles within a professional ecosystem utilizing .NET Core and PostgreSQL.
- Executed architectural refactoring on project modules to resolve layered architecture violations between data layers and Data Transfer Objects (DTOs).

Software Development Intern | RDC Partner Jul 2025 – Aug 2025

- Supported software development lifecycles and played an active role in resolving technical challenges within team-based projects.
- Focused on backend debugging and resolving errors in ASP.NET Core Web API environments.

PROJECTS

Job Application Tracking System (HRMS) | ASP.NET Core Web API, PostgreSQL, React.js

- Collaborated in a cross-functional team to design and develop a robust backend architecture for a comprehensive HR Management System. • Integrated **Keycloak** for secure user authentication and implemented an **AI-driven feature** to analyze and score uploaded CVs, streamlining the objective evaluation process.

- Optimized PostgreSQL database schemas and indexing, significantly enhancing query performance and data integrity for candidate records.

NovaStoreDB & Task Management Application | SQL Server, React, Tailwind CSS

- Designed and implemented relational database structures and executed complex analytical join queries for an e-commerce management system.
- Developed a responsive task management frontend featuring full CRUD operations, successfully deploying the application on Netlify.

EDUCATION

Software Engineering | Gümüşhane University Ongoing — Gümüşhane, Türkiye

CERTIFICATIONS • **Software Professional Development Program (40h)** – Software
Persona / CPD

(Jul 2026)

- **Certificate of Appreciation (Technical Committee)** – Huawei Student Developers
(HSD) (Jul 2026)

- **Interstellar Local Mentor** – TUA Astro Hackathon (Mar 2026)

- **Modern C# Course: From Scratch to Professional** – Udemy (Feb 2025)

- **Code Geek Certificate** – TalentCoders (2024)

- **CodeMasters Certificate** – TalentCoders (2024)

LANGUAGES

- **Turkish:** Native

- **English:** Intermediate
