

BERKAY ŞENGÜL

SOFTWARE ENGINEER

bberkaysengul0@gmail.com
+90 530 305 06 36

Motivated and responsible software engineer with 2 years of professional experience in software development. I thrive in collaborative environments, contributing to projects with adaptability and problem-solving skills. With a strong interest in embedded systems and a passion for continuous learning, I aim to expand my technical expertise and deliver meaningful impact in future projects.

TECHNICAL SKILLS

C/C++	Java	Python
OOP	Git	Jenkins
UML diagrams	TCP/UDP	V2X
Linux	Embedded Software	QT Creator

EXPERIENCE

Ulak Haberleşme - Embedded Software Engineer	January 2024 - ...
- Resolved C++ bugs in the early project phase, improving software stability and performance. - Developed a Python-based test application for On-Board Unit (OBU) devices, enabling automated communication and validation over TCP. - Supported DevOps activities for the Karınca project, contributing to CI/CD processes and build automation. - Implemented V2X scenarios into applications and conducted research on new devices, strengthening system functionality and adaptability.	
Ulak Haberleşme - Candidate Engineer	September 2022 - December 2023
- Gained in-depth experience with Quectel modules, actively working on integration, testing, and troubleshooting within V2X communication systems. - Designed and maintained Jenkins automation pipelines for multiple projects improving build and deployment efficiency.	
Ulak Haberleşme - Intern	June 2022 - July 2022
Developed an HMI simulator using Qt Creator (C++) to support On-Board Unit (OBU) software testing in the V2X project.	
Innova Bilişim - Intern	June 2021 - July 2021
- Assisted in the Petrol Ofisi project, monitoring company-authorized devices and reporting system issues. - Supported cybersecurity tasks, ensuring device uptime and detecting failures or recovery attempts.	

EDUCATION

B.Sc. Software Engineering Çankaya University GPA : 2.38/4	September 2019 - July 2023
