

Yüksel Coşgun – Mobile Developer

- +90 540 124 0105 | +90 507 822 7423
- yukselcosgun1@gmail.com
- Turgut Özal Mahallesi, Yenimahalle / Ankara
- GitHub: github.com/Yukselcsgn | LinkedIn: linkedin.com/in/yuksel-cosgun

■ Skills

- **Programming:** Kotlin, Java, TypeScript/JavaScript
- **Mobile:** Android (Kotlin), React Native, Jetpack, Retrofit, Firebase, KMP (fundamentals)
- **Concepts:** UI/UX, REST APIs, async programming, mobile architecture (MVVM), state management
- **Tools:** Android Studio, Gradle, Postman, Git

■ Education

- Süleyman Demirel University – Computer Engineering (2019–2025)
- Member & Leader of Computer Society(2022-2023)
 - Supervisory Board Member (2023–2024)

■ Experience

Freelance Mobile Developer — 2021–Present

- Delivered multiple real-world client applications for Android and cross-platform.
- Integrated Firebase Auth, Firestore, live sync, push notifications.
- Built clean-architecture modular apps with Kotlin & React Native.

Microsoft — Software Intern (2024)

- Developed ML-backed backend pipelines for data-driven mobile features.

■ Projects

- Dynamic Web Scraper:
 - I developed a dynamic scraping system that automatically adapts to different e-commerce sites.
 - I added proxy management, user simulation, and dynamic selector detection features.
 - Built with Selenium, BeautifulSoup, WebDriver-Manager, pandas; supports proxy management,
- Autonomous Car Sharing System: Finalist at TÜBİTAK 2209-A and Teknofest competitions.
- Social Media Platform: Cross-platform mobile app using React Native (Graduation project).
- AI Projects:
 - US stock price prediction
 - Credit card fraud detection
 - Deciphering unknown ancient alphabet via AI models

■ Certificates

- Turkcell Geleceği Yazanlar – Android 101/201/301
- Turkcell – Data Science & AI Intro
- BTK Akademi – Jenkins, Docker, Blockchain, DoS/DDoS Protection, Digital Awareness
