
- Experience in C, C++ and C# programming
- Working knowledge of Agile, Jira and Git
- Basic knowledge of Java
- Skilled in Windows, AIX and Linux system administration.
- Common knowledge of TCP/IP protocol and SSL
- Good understanding of all stages of software development process including debugging and code analysis to troubleshoot and fix software bugs, advising software support team
- High understanding of design and working process of operating system, experience in system programming
- Working knowledge of UNIX shell scripting
- Experienced in developing user interfaces
- Skilled in understanding software security concepts and application compliance with security standards like
- Good experience in cross-platform application development
- Higher education in computer science, master degree in computer science (neural networks).
- Motivation, potential and great desire to work well and get knowledge.

SKILLS SUMMARY

Programming Languages:	C++, C, C#, SQL, UniVerse BASIC, Java		
Operating Systems:	Windows, Linux, AIX, Solaris, Symbian (a mobile computing platform for smart phones).		
Web Technologies:	HTML, XML.		
Databases:	IBM DB2, Rocket UniVerse, UniData;		
Other Skills:	IBM Tivoli storage Manager (TSM); IBM General Parallel File System (GPFS); IBM Configuration Management Version Control (CMVC); Git, Jira, Agile, SVN; Unix Shells (ksh, bash); IBM Domino; Common knowledge of TCP/IP protocol and SSL; The GNU: Compiler Collection (gcc & g++), developer's tool for directing; recompilation (make), debugger (gdb); An open source developer's tool for browsing source code (cscope). MS Visual C++ (2010, 2017); WinAPI; WPF MFC, STL, Qt SDK (a cross-platform application framework), Code::Blocks SBXA, Wintegrate.		
Foreign Languages:	English	Upper Intermediate	Good knowledge of grammar. Can understand, discuss, and write texts on both business and general activities, including technical discussions, and explain a viewpoint on an issue or a particular theme.

EDUCATION and TRAINING

- Certificate "DB2 9 Fundamentals" in June 2014
- English Pre-advanced (IBA certificate, 2015)
- A bachelor's degree in computer science, "Computer systems and networks" faculty, Belarusian State University of Informatics and Radio-electronics, Minsk (2013)
- A master degree in computer science, Belarusian State University of Informatics and Radio-electronics, Minsk (2016)
- Education course D8L89 IBM Lotus Domino 8.5 System Administration at the Institute of IT & Business Administration (2016)
- Certificate "Red Hat System Administration" in November 2016

- Certificate “Rocket MV Certification exam - U2 Family Application Development” in June 2017
- Education course Java Basics at the Institute of IT & Business Administration in June 2020
